e-Class Room

- Today's Era is Technical Era. Technology made the teaching Hi-tech. Purpose of Virtual class room is to expand the area of study world-wide so that the new generation of doctors can get guidance from the well known subject specialist all over the world through information technology and also they can share their views and experiences throughout the world within seconds. This technology definitely improves the study and education knowledge level of Medical students and also beneficial for the professors of Medical College because they will get an open forum of discussion with other specialist in the world.
- e-class room fully equipped with a high resolution projector, 4 LED TVs, 3 Audio microphone, 1 color microphone and one tablet PC.
- The e-class room was Inaugurated by The Principal & Controller Dr. K. Kant on 25th March 2014.
