# The Rajasthan Medical Journal

## FROM THE EDITOR-IN-CHIEF'S DESK

*“Research is to see what everybody else has seen, and to think what nobody else has thought.”*

*-Albert Szent-Gyorgyi*

*Being a researcher requires inspiration and constant dedication. The time is long past for academia and research granting bodies to put their houses in order and emphasise quality rather than quantity of research output. From the readers and contributors, it is heartening to know that Rajasthan Medical Journal had the desired impact by stirring up reader's interest and author's enthusiasm. Rajasthan Medical Journal was initiated with the aim to assist researchers to grow at all levels - research scholars, scientists, professors, post-docs and students who wish to share their work. It is our constant endeavour to meet quality standards and time deadlines.*

*Rajasthan Medical Journal is a multidisciplinary educational research platform providing individuals an ideal intricate opportunity to publish their ongoing work in respective thrust areas. Our constant efforts are underway to bring the journal in online and digital format to promote the vivid research entries with precise, apt touches and by bridging the gulf between perception and inception.*

*I would request you to join us to sail beyond horizons and to ride beyond stars to bring off contouring destinies.*

**Dr. U. S. Agarwal**

**Editor-in-Chief**

## THE EDITOR SPEAKS

*Dear readers,*

*As a matter of fact, writing this message for the Rajasthan Medical Journal has been quite a gratifying moment for me.*

*I take this opportunity to state that over the years, the journal has been able to maintain its standard in publishing and advancing knowledge and research in the field of medicine.*

*Its goal has been to make publications beneficial to a much wider range of serious readers and potential contributors.*

*The support the journal has so far received from SMS Medical College, the editorial team, and the article contributors, has continued to strengthen our determination to maintain the high standards of publications.*

*I express my gratitude to our well-wishers and contributors, and here I give my promise that as always, we will continue to welcome, not only original and good quality manuscripts, but also constructive comments, suggestions and criticisms from our readers, which will stimulate further advancement in medicine.*

*Also, I take this opportunity to invite the faculties from all over Rajasthan to send their research articles for publication, so that the journal attains a wide scope for extensive research.*

*Dr. I. D. Gupta*

*Editor*
