The Editor
The Hindustan Times

Sir

Through the column of your esteemed newspaper, I draw the kind attention of the parents as well as students about the influence of T.V. and internet on students.

Though it is a true fact that T.V. and internet provides deep knowledge regarding the subjects, but most of the students use it for amusement instead of study. T.V. spoils their time and leaves them in perpetual dreamy dreaming condition. They see vulgar videos on internet. It leaves a bad effect on their minds and makes them uninterested in study.

So, you are requested to publish an effective article regarding the subject.

Yours faithfully

Speech: Child Labour

Honourable principal sir, respected teachers and my dear fellow students, I am Vishwendra Singh of class XII A. Today, I have a golden opportunity to speak on the topic 'Child Labour.' Though we have preached on the men mean, we call ourselves modern but all this seems futile and mere statements when we see children working in tearful and disgusting conditions. Children working below the age of 14 is called child labour. As per the statistics record, about 2 crore children are indulge in child labour. They have to do mearest of the mean job in restaurants, hotels etc. It is a blot on our society. It is their physical and mental harassment. They are handled tools instead of books. Child labour is an obstacle in the development of the nation. The child labour should be rooted out from our society. Poverty, unemployment are the reason for the same. The Government of India has banned child labour. But Lord alone can do nothing. The awareness of people is a must. We should do our best to root out this problem.

Thanks for all to listen me so attentively.
